What the day includes

This one day course covers the essential information to enable a GP, plus some dermatology nurse practitioners to cope with the vast majority of conditions encountered in day to day general practice.

- Up to 25% of all GP consultations relate to the skin
- In collaboration with the Consultant Dermatologist, GPs will be increasingly involved in the disease management of chronic skin conditions
- Dermatology is an area of medicine that is facing major changes from secondary to primary care
- The majority of GPs have little or no training in dermatology
- Hospital referral rates for dermatology are consistently high

The course is suitable for

This course is aimed at GPs and VTS registrars primarily but would also be appropriate for specialist nurses involved in skin care. Indeed anyone involved in examining and advising patients about their skin lesions would benefit
